

Advance Praise for *Coffee Can Investing*

‘This book offers objective, fact-based and sensible advice for saving and investing that will enable readers to formulate realistic lifetime aspirations and to accumulate wealth to achieve them. Most importantly, it will teach them [how] to avoid losing a small fortune in fees and commissions and to avoid losing a large fortune through market timing attempts, bad asset allocation and overtrading. A must-read for India’s emerging huge numbers of middle and upper-middle income-earners’—Avinash K. Dixit, John J.F. Sherrerd ’52 University professor of economics, emeritus, Princeton University

‘Sensible advice on portfolio construction and wealth management is hard to find in India. This book therefore fills a void in the Indian market. Anyone who wants to invest sensibly and retire happily should read this book’—Sanjay Bakshi, adjunct professor, Management Development Institute (Gurgaon)
