

OPEC controls almost 40 percent of the world's crude oil.

It accounts for about 75 per cent of the world's proven oil reserves.

Its exports represent 55 per cent of the oil traded internationally.

Indian Scenario

India ranks among the top 10 largest oil-consuming countries.

Oil accounts for about 30 per cent of India's total energy consumption. The country's total oil consumption is about 2.2 million barrels per day. India imports about 70 per cent of its total oil consumption and it makes no exports.

India faces a large supply deficit, as domestic oil production is unlikely to keep pace with demand. India's rough production was only 0.8 million barrels per day.

The oil reserves of the country (about 5.4 billion barrels) are located primarily in Mumbai High, Upper Assam, Cambay, Krishna-Godavari and Cauvery basins.
