

1) NPA

A Non-performing asset (NPA) is defined as a credit facility in respect of which the interest and/or installment of principal has remained 'past due' for a specified period of time.

2) NII

Net interest margin (NIM) is a measure of the difference between the interest income generated by banks or other financial institutions and the amount of interest paid out to their lenders (for example, deposits), relative to the amount of their (interest-earning) assets. It is similar to the gross margin of non-financial companies.

3) CRR

Banks in India are required to hold a certain proportion of their deposits in the form of cash. However, actually Banks don't hold these as cash with themselves, but deposit such cash with Reserve Bank of India (RBI) / currency which is considered as equivalent to holding cash with themselves. This minimum ratio (that is the part of the total deposits to be held as cash) is stipulated by the RBI and is known as the CRR or Cash Reserve

4) REPO RATE
