

Step Three

Creating money habits and rituals

We were inevitably going to have to move on to some practical stuff eventually, but I really want you to bring the awareness and the holistic attitude that we've covered in the first two steps into this new phase. Creating money rituals is not really as fluffy as it sounds; there are absolutely no crystals involved, for starters. I won't mention the universe once, I promise. It's about building a connection between you and your money that fosters and encourages positive habits, converting the inner work that we've been doing into measurable outcomes.

Creating routines, rituals and habits around your practice with money will support your journey towards a healthier money mindset and give you a framework for managing your money so that you don't have to think about it all the time. What most people find difficult about being financially disciplined, organized and aware is not the initial setup, but the fact that it can feel relentless and never-ending. With money, it often feels like there is always some new urgent or unexpected expense, always a new hill to climb. But if you put the right systems and habits into place, navigating these undulations in your financial circumstances will feel
