across 60
countries.**

The Friends That Invest Investing Masterclass is a comprehensive six-week step-by-step educational roadmap to help you go from a complete beginner to a confident and knowledgeable investor, from anywhere in the world. Created by the world's largest investing podcast for women.

Visit friendsthatinvest.com to find out more.

Here's what some of our students have to say:

'The knowledge in this course is incredible. I thought I knew a decent amount before starting this but the breadth of knowledge that this provides goes beyond the basic investor. Module 8-10 just really took my understanding to the next level!'

'I loved Sim's laid back delivery of the content. It made it feel so reassuring that its actually all quite simple once you have a basic understanding.'

'I have learnt soo much from this masterclass. I was afraid at first but feel I am taking the necessary steps for future me! I feel more confident than ever to start this journey. Thank you!'
