

years, you will realize how to make money in stocks. There is no short cut to success in stock market. You have to go through the pain of acquiring knowledge and wisdom before you can benefit from it.

I have worked out a very simple tool that takes care of the technical aspects of stock picking. The tool is simple, yet very powerful and has already been tested and tuned for more than 10 years now. I will be sharing this with all my book readers in the upcoming book on stocks. As with all my other books, there will be no charges to avail this tool or any guidance from me.

Stop procrastinating, get started

Wikipedia defines procrastination as "the act of replacing high priority actions with tasks of low-priority, and thus putting off important tasks to a later time". Procrastination may result in stress, a sense of guilt and crisis, severe loss of personal productivity, as well as social disapproval for not meeting responsibilities or commitments. These combined feelings may promote further procrastination.

"Procrastination never won a race, received a promotion or changed the outcome of any situation."

We have all experienced it, whether it is calling the repair man to make required alterations in the house, studying at the last moment or planning your financial freedom. We always think there is another day.

Well, think about this. If a fireman procrastinated about going into a burning building to save a child, it could mean the difference between life and death; if an employee decided to wait a few days to apply for a promotion, he or she might never be considered..... and on and on.

Procrastination turns out to be one of the worst enemies to anyone's wealth building abilities. We have an uncanny ability to first procrastinate, and then justify by giving 'valid' reasons for our inaction.

It took me 3 years to make my first investment in the stock market after having mentally conceptualized the fact that I must get into it. The amount
