

take care of inflation for the rest of your life. Establish the time needed to build this nest egg, starting today.

Step 4 : Create a Detailed Financial Freedom Plan

Create a month on month portfolio plan that ties up with your high level financial freedom plan in Step 3. This should allow you to track your journey month on month.

Step 5 : Execute your Financial Freedom Plan

Once you have a monthly plan in place, it is time to execute it. For each asset class in your portfolio, execute your plan considering vital tips from me, based on my experience in this journey.

Step 6 : Track your Financial Freedom Plan monthly

Track the monthly nest egg target against the actual nest egg value on a regular basis and make sure that you stay on track.

Step 7 : Tune / Rebalance your Portfolio every year

Use trends based on the last year and previous years to see which part of the portfolio is giving best returns, and make your next year's investment decisions based on that.

Step 8 : Celebrate milestones with your family

Celebrate each milestone during your journey with your family and friends and give yourself a pat on the back.

These are the eight simple steps that can elevate your life forever.

Follow me as I take you through this journey with each of the steps. Do not hesitate to stop, re-read and understand each step before you move on to
