Fig 7.7: Inputs to Duration Calculator

Having entered data for Worksheet 1 (Nest egg calculator) and Worksheet 2 (Duration Calculator), the last worksheet where we need to feed data is Worksheet 3 (Special Events). Once this is completed, we would be in a position to calculate the results from Step 3.

3. Special Life Events

As described earlier, Special Life Events are those 'additional' 'high expenditure' events in your 'future' life, which are 'not' covered under your regular expenses in Step 1. These are future events only, and have a very high probability of occurring sometime in the future. As an example, it could be the marriage of your child, college or post graduation admission expenses for your child, investment in your own business that you want to open in future, a dream car that you want to buy etc.

Step 3 file on the website lists some of the possible special events that most of the readers we interacted with, wanted to list down. You are free to select those applicable to you, or add some of your own special events which are not yet listed.

For each of the special event in your future life, you need to provide the following inputs:

- 1. Event Description e.g. Child's wedding**
- 2. Current Year (Auto Calculated)**
- 3. Expenses if the event was to happen today**
 - While the actual event is scheduled for a future year, you need to do a fair judgment of how much
