**Fig 7.10 : Copy Data from Step 3 / Duration Calculator**

- Open your Step 4 file, which you would have downloaded from our Freedom Portal
- Go to the tab "Plan Inputs"
- You will find one single table in this tab i.e. 'Finalised Inputs from Duration Calculator'. This is the exact place where you need to paste the content that you just copied in point 4 above. This will lead to overriding of the existing sample data, which is just fine. Fig 7.11 shows the sheet with the pasted content.

| Finalised Inputs from Duration Calculator |             |                 |                      |                       |             |
|-------------------------------------------|-------------|-----------------|----------------------|-----------------------|-------------|
| End of Year *                             | Principal   | Accrued Returns | Savings for the year | Special Events Amount | Total       |
| 2015                                      | 77,00,000   | 7,85,400        | 3,84,000             | 0                     | 88,69,400   |
