

- What is my monthly nest egg target this month?
- Where have I reached compared to the target?
- How am I performing? Will I be financially free by the target date?
- What is my exact investment in each asset class of the portfolio?

I would recommend not to move ahead till you have created a detailed financial freedom plan of your own.

Spend time here. If you use all the tools and templates that have been given to you on our website, you should be able to create a detailed financial independence plan in less than one or two days. However, you may need time to collate financial data about your expenses, assets and liabilities, if you have not done it earlier. Give it the required time. Your customized Financial Freedom Plan is one of the key intended outcomes of this book.
