

journey towards my freedom, we celebrated every million that we reached with a party at home. The day when we touched the next million, we ordered pizzas, celebrated and had fun.

We still have pleasant memories of many of those achievements and with each such celebration, our family became more united and had more and more faith in my goal and aspirations.

So start as soon as you can, and make your journey as interesting, exciting and memorable as you can.

As long as your dreams and goals are clear and are driving you, nothing is impossible.

With this, we have reached the end of our financial planning and tracking section. I sincerely hope it has given you some useful information to get going on your journey. I hope that you will be able to utilize my experience to push yourself out of the comfort zone and make your journey successful.

I would recommend that you visit our Freedom Portal and check out the latest versions of various downloadable templates and calculators that are built in for your convenience. We keep updating these on a regular basis to make them more user friendly and beneficial for you.

Before we conclude this book, it is important that we take a quick look on some "little known" tax saving tips. These are some of the tips that most of us are usually unaware of. There are other standard ways to save taxes and you should refer to your financial advisor or online information for most recent updates on those.

But the tips in the next section will encourage you to delve deeper and gain more information about these tips from trusted and more recent sources.
