

Praise for the Book

“Manoj has shared some of the most meaningful life experiences and has unfolded various financial tools in a step by step method to explain a complex and most sought after subject called Financial Freedom.

This book is an outstanding attempt to make your dreams come true and achieve inner happiness. It touches every aspect of financial planning and makes it one of the finest books ever written with examples, recommendation and experiences.”

Ashok Monga,
Joint General Manager,
Head—Corporate Social Responsibility,
Larsen & Toubro Ltd.

“... Most of the limiting factors to our financial success exist in the walls we all have built up in our own minds, and achieving success lies in knocking down those walls.

Manoj has beautifully converted this idea into the book ..., this book is not only strong on the actual mechanics of personal finance, but its other major strength is in setting the psychological stage for strong personal finance habits.

Another distinct feature of this book is the heavily anecdotal nature of the book. Manoj likes to use lots of anecdotes to illustrate the points – and he’s pretty good at choosing truly strong ones. These anecdotes emphasize on the psychological underpinnings of a thought process.”
