

how much to invest and when to invest.

This section will give you an overview of the many financial investment tools that I have personally invested in. However, the list is by no means exhaustive or complete. There are certain financial investment tools like art, coin and stamp collections, schemes like Senior Citizen Savings Scheme, Post Office Schemes, etc., in which I have very limited exposure, but they seem to have a good future potential. Such tools are not covered in this book for the simple reason that I lack personal experience in investing in them and it would not be fair to recommend anything that I have not experienced myself.

Also, considering the fact that this book is aimed at motivating people about the importance of financial freedom and getting them started on this extremely critical journey of their lives, it is assumed that these relatively "rarer" financial investment tools like art, etc., will come as a regular learning experience for budding financially free professionals.

This book just "keeps things simple" and "gets you started". After that, it is all in your hands.

Financial Investment Tools	
Bank Fixed Deposits (FDs)	Superannuation
Bank Recurring Deposits (RDs)	Gold
PPF (Public Provident Fund)	Stocks
EPF (Employee Provident Fund)	Bonds
VPF (Voluntary Provident Fund)	Mutual Funds
National Pension Scheme (NPS)	FMPs (Fixed Maturity Plans) of MFs
Sukanya Samridhi Scheme (SSS)	Commodities
Gratuity	Real Estate

We will start with the first and the most widely known investment tool i.e., bank fixed deposits.
