

chief investment officer set out to tell investors how they could beat the market, only to conclude that they can't. Heavy reading, but required if you really want to delve into this topic and get the inside scoop.

Andrew Tobias. *The Only Investment Guide You'll Ever Need*. San Diego: Harvest Books, 2005. An excellent (and witty) overview of key investment concepts.

Insurance

Jack Hungelmann. *Insurance for Dummies*. Hoboken: Wiley, 2001. A good one-stop guide to all the major areas of insurance, how to shop for them, and what to watch out for.

Lee and Carla Rowley. *Cheap Insurance for Your Home, Automobile, Health & Life: How to Save Thousands While Getting Good Coverage*. Ocala: Atlantic Publishing, 2008. Probably the best one-stop guide to all the major areas of insurance out there at the moment.

Taxes

The following three books are excellent tax guides. Make sure to get the most current edition!

Peter W. Bernstein, ed. *The Ernst & Young Tax Guide*. New York: Vanguard Press, 2007.

The J.K. Lasser Institute. *J.K. Lasser's Your Income Tax*. Hoboken: Wiley, 2007.

Eric Tyson, Margaret Munro, and David J. Silverman. *Taxes for Dummies*. Foster City: IDG Books, 2007.

General Personal Finance

Jane Bryant Quinn. *Making the Most of Your Money: Smart Ways to Create Wealth and Plan Your Finances in the '90s*. New York: Simon & Schuster, 1997. Although its 900-plus pages may be a bit overwhelming, and some of it will be irrelevant to people in their twenties and thirties, this encyclopedic guide is the best.

Miscellaneous

American Bar Association. *The American Bar Association Guide to Credit & Bankruptcy*. New York: Random House Reference, 2006.
