Know Your Own Mind, Live Your Own Life

You have a great potential for success, but first you must know your own mind and live your own life—then you will find and enjoy that mighty potential. Become acquainted with your inner self and you can win what you want within a time limit of your own choosing. Certain special techniques help you win the goals of your dearest dreams, and every one of these techniques is easily within your power.

SOMEWHERE along the path of life, every *successful* man finds out how to live his own life as he wishes to live it.

The younger you are when you discover this mighty power, the more likely you are to live successfully and happily. Yet even in later years, many make the great change—from letting others make them what they are, to making sure that they make their lives to their own liking.

The Creator gave man the prerogative of power over his own mind. It must have been the Creator's purpose to encourage man to live his own life, think his own thoughts, find his own goals and achieve them. Simply by exercising this profound prerogative you can bring abundance into your life, and with it know the greatest wealth of all, peace of mind, without which there can be no real happiness.

You live in a world filled with outside influences which impinge upon you. You are influenced by other people's acts and wishes, by law and custom, by your duties and your responsibilities. Everything you do has some effect upon others, as do their actions upon you. And yet you must find out how to live your own life, use your own mind, go on toward the dream you wish to make real and solid. *Know thyself*, said the ancient Greek philosophers, and this remains key advice for the man who would be in all ways wealthy. Without knowing yourself and being yourself, you cannot truly use the one Great Secret which gives you power to mold your future and make life carry you the way you want to go.
