

ward Mastership will not have ended, but he will have spread before him the chart by which to navigate successfully."

The voice ended. I began to hear little sounds of the world around me, and I knew the Master had returned to the Great School of the Masters.

The inherent lesson in a few words. Ultimately, nothing matters. Read once more and see how much of the Master's message is concerned with *here* and *now*, the time in which we insure, by ourselves, whether life will reward us or punish us; whether we will win our dreams or die unfulfilled. Notice the several ways in which we are enjoined not to become too meanly important . . . *meanly* important in a big show of property or power which counts as nothing in the scheme of things and can destroy health and happiness.

As for the Ultimate beyond our earthly ultimates, we see a vision of a great reservoir of life-spirit, but we are not enjoined to walk in awe nor to walk apart from the affairs of life in some kind of self-assumed sainthood. Goodness in life devolves upon *living*, and life was not planned as a bed of roses, but as a wholehearted adventure in training one's self to know and win and enjoy the good.

Already you are qualified to use the Supreme Secret in many ways. As soon as you know it—if you do not already know it—you will see why this is so.

CHECKING ON CHAPTER 12:

You are very important—for a little while

When you take your affairs too seriously you steal from your peace of mind. A really big man knows the world around him is bigger than he is. The tensions incurred in trying to "live big" when it is not in your nature may bring you a guilty conscience and other troubles. Many really big men stop by the wayside of life and enjoy themselves, but small men are afraid to do this. Andrew Carnegie had a memorable motto which teaches us not to attempt to borrow the bigness of others.

Ultimately, nothing matters

When you are grimly involved in getting, it is time to remind yourself that, ultimately, nothing matters. Everything matters in its time and place, but maintaining perspective gives you
