

This is the Supreme Secret, forever the foundation-secret of man's efforts to control his destiny. Conceive a great step forward in your life, form a deep subconscious belief, and the belief becomes the very foundation of reality. "Wishing won't make it so," for a mere wish does not penetrate the depths of the mind; but a true belief becomes part of your complete being.

### *Conscious and subconscious*

Your subconscious mind is your hidden boss. Although your conscious mind controls your conscious actions, the subconscious dictates the pattern of those actions. If, subconsciously, you are afraid to do something, you may fill in with excuses and evasions which prevent you from taking that action. But your subconscious can be persuaded to change any of its standing orders and thus completely change your life. Your subconscious mind is the seat of deep belief which becomes your constant guide.

### *The subconscious knows no limit to its power*

The proper use of the subconscious mind puts us in touch with forces beyond the ordinary senses. Thoughts can be transmitted to the subconscious mind of a sleeping person, by-passing the guard of the conscious mind. This is the secret of seeming miracles of healing. Methods of sleep-learning may eventually be so perfected as to open great new horizons of mental power.

### *Auto-suggestion and your success*

Knowing that what the human mind can believe, the human mind can achieve, you can see that deep belief opens great vistas of opportunity. In order to get what you want, you must focus your belief on a Definite Chief Aim. Money is a goal to be handled with judgment, but it is an acceptable goal and a definite one. Techniques of auto-suggestion should be focused on the precise amount of money you want and the means by which you are going to attain that sum. Peace of mind and power of mind go hand in hand, and the mind at peace is the mind most capable of great conceptions, great beliefs and the enjoyment of those beliefs as solid realities.
