

another, and love for one person always can be transmuted into love for another.

Know that there *is* another. Know too that love also transmutes itself into great achievement and great Service. Charles Dickens' first love almost ended in tragedy when he found it was not reciprocated. He transmuted his love into his writing, and his most popular book, *David Copperfield*, arose from a heart which *seemed* to be broken.

Love generously. Love fully. Love faithfully. Love is a great power for good when you get it, but love can destroy you when it gets you. Do you think I am cynical in talking thus of the most sublime of all emotions? No, I am following the purpose of this book and showing you the lessons of life itself. Any fear holds you back and hurts you. *Cast out fear of loss of love and drive ahead.*

5. Fear of the loss of liberty. I read recently about a man who had served a term in prison and had been released. He had difficulty in finding a job, for he was honest enough to say he was an ex-convict. He was for a time unable to come home to his family, for they mistrusted him. Within himself, however, he knew he was a changed man, and with quiet persistence he has won back a place in the world of honest people.

He expressed his thankfulness at having regained the privileges of working for a living, of planning a career, of having a family and a home. "But all these blessings have their foundation in a greater blessing," he said. "I have my liberty."

Millions have learned what happens when an entire nation loses its liberty. The necessities of life may all be present, and many of the luxuries, but without the liberty to speak one's mind and live one's own life, all the rest seems a mockery. I recall a group of men and women who crossed the ocean in a tiny, unseaworthy boat and nearly drowned several times in order to win their way to our land of liberty. This sailing craft began its voyage with two masts, and at one port of call they sold one mast in order to buy provisions—yet still they struggled onward to find liberty.

And I know of many who have given up so much liberty of body and mind that they might as well be in prison or living under a dictator. Also I know many others who so constantly fear the loss of liberty that the fear itself becomes a fetter on their souls—as is the case with fear of any kind.

When I speak of freedom of mind and body I speak of a
