

## MILTON FRIEDMAN (1912–2006)

Born in Brooklyn, New York, Friedman earned a Ph.D. in economics. He worked in New York and Washington and taught at the University of Chicago. The ideas he developed there, recommending low taxes and unregulated markets, made him probably the most influential economist of the late 20th century, working as an adviser to presidents Nixon and Reagan.

income.

The top 10% of earners in the US make more than half of the country's total
