

maximizes your retirement income opportunity set. This provides us with a standardized view of where you stand on every tactic, tool, or factor within the retirement income framework. Exhibit 8.3 provides one example of what this may look like.

Exhibit 8.3

Scoring the RIO Questionnaire

Determining Strengths and Weaknesses

The RIO scores determine your relative strengths and weaknesses, and these will then be presented in the order of prioritization of your personal goals. In other words, if your goal priorities center on longevity, we will first review your strengths and weaknesses from the reliable income portion of the map, as it is most relevant for you. We will continue to work in this stepwise order until we worked through the RIO-Map. Exhibit 8.4 provides an example of how we present your strengths and weakness.
