

centralized “command economy” are now relegated to the ash heap of history. They did not work. Our system of freedom and opportunity serves as a model of success for most countries in the world.

Today it’s not enough for you to just work and earn a salary. To do the things you want to do, go the places you want to go, and have the things you want to have in your life, you absolutely must save and invest intelligently. The income from your investments and the net gains you can make will let you reach your goals and provide real security. This book can just change your whole life. No one can hold you back but yourself.

● **SECRET TIP—The first step in learning how to pick big stock market winners is to examine leaders of the past, like those you’re about to see, to learn the characteristics of the most successful stocks. From these observations, you will be able to recognize the types of price patterns these stocks developed just before their spectacular price advances.**

Other key factors you’ll discover include what the quarterly earnings of these companies were at the time, what the annual earnings histories of these organizations had been in the prior three years, what amount of trading volume was present, what degree of relative strength there was in the prices of the stocks before their enormous success, and how many shares of common stock were outstanding in the capitalization of each company.

You’ll also learn many of the greatest winners had significant new products or new management, and many were tied to strong industry group moves caused by important changes occurring in an entire industry.

It’s easy to conduct this type of practical, commonsense analysis of all past successful leaders. I have already completed such a comprehensive study. In our historical analysis, we selected the greatest winning stocks in the stock market each year (in terms of percentage increase for the year), spanning the past 125 years.

We call the study “The Model Book of Greatest Stock Market Winners.” It’s been expanded recently to cover stocks dating back to the 1880s. It now
