

Among them are demands for "emergency" measures designed to cut down or even halt imports of many materials and products from foreign lands.

"The United States must cut all its foreign imports to an absolute minimum,,, a junketing American businessman declared to me not long ago. "That's the only way American business will be able to survive."

I'm afraid he was very surprised when I told him that, in my opinion, the policy he advocated was tantamount to economic suicide. The way I see it, the long-term solution to our country's economic problems lies in *more*, not less, foreign trade. For the long haul, U.S. business will have to embark on a gigantic, farsighted program of international trade, seeking and expanding markets in foreign lands.

There is no room for isolationist business philosophies in our present era. The world has grown far too small. The American economy cannot batten upon itself; American business must develop new and more overseas trade. And, in order to sell to other countries, we must also buy from them. It's that simple. I firmly believe that the young businessman who can rid his mind of outdated, preconceived notions and gear his thinking to these needs of the times will reap tremendous rewards. He will make his millions. For, despite rumors and reports to the contrary, most foreign countries want very much to have us sell them goods. They *want* to buy from us.

I travel extensively abroad, and I have business interests on five continents. I have found very little evidence to indicate there is any lessening of demand for products which

bear the "Made in U.S.A." label. The American way of life remains the golden symbol of good living everywhere. To duplicate or imitate it is still the goal of most people in foreign ands—and the promise that they will do so is still the most glowingly attractive and effective promise foreign government leaders and politicians can make to their own people. Even Russians admit this when they make predictions that Soviet production and living standards will equal or surpass prevailing American levels. Whatever may have happened to American political prestige in recent years, there has
